Attorney's Docket No.: 2001-094-NSC

IN THE UNITED STATES PATENT AND
TRADEMARK OFFICE

In re application of: Pesola et al. Group: 2186
Serial No.: 10/033,925 Examiner: Tuan Thai
For: **VOLUME TRANSLATION APPARATUS AND METHOD.**

1. This action is responsive to amendment filed July 20, 2005. Claims 1, 3, 5-12, 14, 16-23, 25, 27-33 are presented for examination. Claims 2, 4, 13, 15, 24 and 26 have been cancelled. Claims 1, 3, 5-12, 14, 16-23, 25 and 27-33 are now allowed.

REASONS FOR ALLOWANCE

2. The following is an Examiner's Statement of Reasons for Allowance:

 The prior arts of record do not teach or suggest, alone or in combination, **all** the limitations of the amended independent claims of the current invention (claims 1, 12 and 23). The closest prior arts of LeCrone et al. ('046) and Schumacher ('765) do not disclose the claimed invention wherein LeCrone discloses a dynamic address switching system in a data processing system with redundant data storage facilities wherein the data storage

Art Unit: 2186

facilities being implemented as local and remote system, each comprises a disk array storage device having only one type of storage media as opposing to the different types of storage media disclosed in the current invention; particularly, LeCrone teaches the data storage facilities can have many different forms; e.g. different internal structures of disk storage array, however LeCrone does not teach or make reference to using different storage media types, nor does Crone disclose storing the original physical volumes on a first storage media type and the physical volumes on a second storage media type. Schumacher ('765) further do not disclose formatting the access request from a first media type to a second media type as being claimed in the current invention. In light of the foregoing, claims 1, 12 and 23 of the present application are found to be patentable over the prior arts.

Claims 3, 5-11, 14, 16-22, 25 and 27-33 further limit the allowable independent claims 1, 12 and 23. These claims are therefore allowable for the same reason as set forth above.

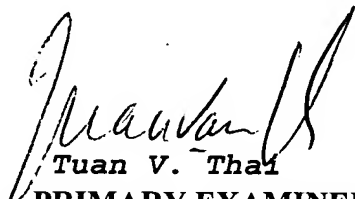

Any comments considered necessary by Applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
